**AIR UNIVERSITY (AETC)**

**22 JUN 2001**

**MEMORANDUM FOR PROSPECTIVE AEROSPACE POWER COURSE PARTICIPANTS**

**FROM: AU/CC**  
**55 LeMay Plaza South**  
**Maxwell AFB AL 36112-6335**

**SUBJECT: Aerospace Power Course (APC)**

1. Welcome to the Aerospace Power Course! As we evolve to an Expeditionary Aerospace Force, we need airmen well versed in aerospace power principles and beliefs. The APC was carefully designed to prepare you to articulate and advocate aerospace power principles and beliefs. The course covers aerospace power theory and doctrine, including Air Force core competencies, tenets of aerospace power, expeditionary aerospace forces and much more--all in one dynamic, interactive program. We hope the course will help you communicate the unique perspective that operating in the third dimension gives our service.
2. Because of the required bandwidth, we recommend that you take this course at work using your network or a DSL/cable modem-rated connection. If you do not have such a connection available, please send electronic mail to: [APCHelp@maxwell.af.mil](mailto:APCHelp@maxwell.af.mil) or a letter to: CADRE/WSD, 625 Chennault Circle, Suite 221, Maxwell AFB AL 36112-6428, to request a CD-ROM version of the course. You can complete the surveys and take the final test using any Internet connection.
3. We hope you will take the time to complete the Aerospace Power Course to better prepare yourself as an Air Force professional. As you complete the course, please provide your feedback to CADRE via the built-in post-course survey. Best wishes for your continued professional development.

  
**DONALD A. LAMONTAGNE**  
**Lieutenant General, USAF**  
**Commander**
